

LUKOIL TOSOL SUPER A65

Low-freezing coolant

Meets requirements

- GOST 28084-89

Product description

Ready-for use coolant with low pour point manufactured on a base of ethylene-glycol with anticorrosion and anti-foam components and stabilizers. For use in car engines operated at temperature down to -65 °C.

The product effectively chills down an engine and protects the system against corrosion and scaling. Neutral to rubber hoses and sealants made of rubber and plastic.

Application

Recommended for use in passenger and commercial vehicles' cooling systems.

The product name in an order: Low temperature coolant LUKOIL TOSOL SUPER A 65, STO 79345251-007-2008

Typical test data

The information given in the typical data does not constitute a specification and can be affected by allowable production tolerances. The right to make modifications is reserved by OOO «LLK-International»

Property	Test methods	Value
